## ELEKTROAROLA

*Elektro-Arola Oy develops and manufactures alert and communication systems for professional use.*

*Established in 1974, we have nearly four decades of experience in supplying high quality customer solutions.*

*Our primary customer segments are different blue light & public safety organizations and the electric power industry.*

### Our main product groups are:

- Interconnectivity solutions especially for alert use
- Status, AVL and navigation solutions
- RoIP radio systems
- Electronic siren / public address systems for vehicles and civil defence

We specialize in TETRA, PMR, IP and GPS technology.

Elektro-Arola Oy is located in Turenki, southern Finland.
