

#### Expert Wireless

**Communications Solutions**  
National Wireless prides itself in being Australia's Premier Wireless Communications Solutions Provider. With offices located in Adelaide, Brisbane, the Gold Coast, Newcastle and Hunter Valley, and 40 staff members, we are well positioned to service the needs of the business to business, commercial and industrial marketplace. Key vertical markets where we have developed a high level of experience over the past 15 years of operation include:

- Petro-Chemical Refineries & Production Facilities
- Mining & Resources; Oil, Gas & Coal Operations
- Heavy Engineering, Infrastructure, Construction & Project Management
- Viticulture & Wine Production
- Hospitality & Major Shopping Centres
- Manufacturing Facilities & Distribution Centres
- Rail & Air Transportation Operators
- University, Colleges & School Campuses

#### Digital & Analogue

**'CAMPUS' & 'AREA-WIDE' Solutions**  
We specialise in the sale of 'Private Campus-Based' Digital & Analogue 2-Way Radio Equipment including National Wireless' Tetra systems, and pride ourselves in tailoring solutions to the specific requirements of each individual customer. We are also able to offer a number of 'Area Wide' solutions including Motorola's Zeton Network providing Digital communication services to the majority of metropolitan areas.

#### The Forefront of Emerging Technologies

The future is exciting at National Wireless as we have diversified our core competencies into Wireless Data Technologies, including: Wireless IP Networking (Point - Point, Point - Multi Point, Backhaul and Mesh solutions) & GPS Tracking/Fleet Management Systems. We have and continue to implement some of the largest wireless networks in Australia capable of streaming Voice <-> Video <-> Data.

#### Expert Service

**'Meeting & Exceeding Customer Expectations'**  
With a talented technical team that is trained to the highest standards, and combined with the latest technology you can be confident of receiving the best advice, support and superior product knowledge. We have a proven ability to successfully implement projects that require specific engineering, and have a team of expert technicians capable of completing even the most demanding custom installations.

#### When Communication Downtime Must Be Avoided

National Wireless has a number of Programmed Maintenance-System Support agreements available for organisations where network/communication system downtime must be avoided. This is particularly relevant for those companies that operate outside of normal business hours. With the option of 8x5 or 24x7 agreements we can guarantee prompt response, service and repair to your network/communication system with a minimum of downtime.

#### Short & Long Term Rental

**'Real Financial Alternatives'**  
By renting your equipment through National Wireless there is no upfront capital expenditure, as a result you can focus capital on profit generating activities. Rental payments are 100% tax deductible, and can be treated as an expense to maximise your return on your balance sheet. We also offer rental insurance that will cover repair and/or replacement of damaged equipment.
